

Screening for stability: Characterizing formulations with DLS

Tuesday, December 8th 8:00 AM PST (Americas)
Thursday, December 10th 9:00 AM CET (Europe/Asia)

Virtual Workshop & User Meeting

December 10th Agenda (Europe/Asia)

9:00 AM Welcome, Introductions & Meeting Overview

Formulation stability

9:05 AM Optimizing formulations

9:30 AM Accelerated Stability Studies: Thermal Stability

9:45 AM Q&A with our Panelists

9:55 AM Coffee Break

Setting up screening experiments

10:00 AM What's new in DYNAMICS

10:15 AM Lab demo: Setting up DLS/SLS experiments with the DynaPro Plate Reader

10:45 AM Q&A with our Panelists

10:55 AM Coffee Break

Software practical: Tips and tricks for data analysis

11:00 AM Particle Concentration for viral vector characterization

11:15 AM Interactions: Measuring k_D and A_2

11:30 AM Temperature analysis

11:45 AM Q&A with our Panelists

11:55 PM Summary and wrap-up
